PROFESSIONAL SUMMARY

Results-driven Associate Full Cycle Engineer and former Trainee Quality Assurance Engineer with expertise in CPaaS (Communication Platform as a Service) platforms, end-to-end quality assurance, and production implementation. Skilled at leveraging AI-assisted workflows and modern tools to optimize testing, automation, and deployment operations. Experienced in API/UI testing, backend database validation (MySQL, MongoDB), and cloud solutions with a strong background in software research, security compliance, and technical leadership.

WORK EXPERIENCE

hSenid Mobile Solutions — Associate Full Cycle Engineer **Mar 2026 – Present**

- Drive full-cycle quality assurance (QA) and production implementation tasks for high-availability enterprise CPaaS products (SMS, voice, and cloud communication APIs).
- Execute seamless production deployments and implementation workflows, managing post-release monitoring, configuration, and stability verification.
- Leverage modern AI tools and automated techniques to streamline test script generation, log analysis, implementation workflows, and engineering efficiency.
- Perform robust functional, regression, API, and UI testing to guarantee system reliability, multi-tenant security, and platform performance.

hSenid Mobile Solutions — Internal Security Auditor (ISO 27001:2022) **2026**

- Executed internal security audits against ISO 27001:2022 standards across corporate systems and platform operations.
- Assessed risk controls, access governance, data protection mechanisms, and compliance workflows to ensure platform security readiness.

hSenid Mobile Solutions — Trainee Quality Assurance Engineer **Aug 2025 – Feb 2026**

- Executed manual, functional, regression, API, and performance/load testing (JMeter) for CPaaS API endpoints and web interfaces.
- Designed granular test cases, authored comprehensive test suites, and managed defect logs using industry-standard tracking tools.
- Validated backend data integrity, session transactions, and complex query results using MySQL and MongoDB.

TECHNICAL SKILLS

QA & Automation	Cucumber, manual testing, functional, regression and load testing (JMeter), API testing (Postman), test-case design, defect tracking
AI & Cloud	AI-assisted development and testing workflow optimization, REST cloud APIs, Tencent Cloud (in progress)
Programming	Java, Python, JavaScript, Dart, HTML, CSS
Databases & Tools	MySQL, MongoDB, Supabase, Git, GitHub, Postman, JMeter
Frameworks	React, Flutter
Languages & Soft Skills	English (fluent), Tamil (native). Leadership, critical thinking, Agile execution, problem solving

EDUCATION

B.Sc. Honours in Computer Science — University of Jaffna **Effective date: 17 Nov 2025**
GPA 3.18 / 4.00 · 120 credits

G.C.E. Advanced Level (Mathematics) — St. Patrick's College, Jaffna **2019**
1A, 2C · Z-score 1.0682

KEY PROJECTS

CPaaS Products **Aug 2025 – Present**

Communications Platform as a Service

- Assured reliability and high availability for cloud communication services enabling SMS, voice routing, and RESTful API integrations.
- Conducted automated and manual API validation, load scenario modeling, and user journey testing.

Behavioural Analysis for Money Laundering in Bitcoin **Mar 2024 – Nov 2025**

Undergraduate research

- Engineered a machine learning framework incorporating time-based transaction metrics and Explainable AI (SHAP) to detect suspicious cryptocurrency activity.
- Evaluated feature engineering impact, model precision, and feature importance interpretations published at IEEE ICBC 2025.

Student Feedback System **Jan 2024 – Dec 2024**

Team leader and backend developer · mobile application

- Led a cross-functional team building a Flutter/Dart mobile app with a Supabase backend, real-time sync, and OTP authentication.

Field Techy Client **Jun 2025 – Jul 2025**

Manual software tester · mobile and web

- Executed functional specification verification, logged defect reports, and verified bug resolutions across mobile and web builds.

PUBLICATIONS

K. Raseswaran, J. S. Tharani, and V. Muthukkumarasamy, “Behavioural Analysis for Money Laundering Activity in the Bitcoin Network,” *2025 IEEE International Conference on Blockchain and Cryptocurrency (ICBC)*, Pisa, Italy, 2025, pp. 1–5, doi: 10.1109/ICBC64466.2025.11185094.

TRAINING, CERTIFICATIONS & WORKSHOPS

- **Forward Deployed Engineer training, hSenid Mobile Solutions** (Aug 2026 – Present). Selected as 1 of 8 engineers company-wide for client-facing solution architecture, custom system integrations, and rapid technical deployment.
- **IBM / edX:** Introduction to Cloud Development (CAD101EN), Introduction to Data Science (DS0101EN), Python Basics for Data Science (PY0101EN).
- **SoloLearn:** Python for Beginners, Python for Data Science, SQL, HTML, Java.
- **Workshops:** Google exploreCSR Symposium and Summer School on Machine Intelligence (2024), IEEE Mastering Deep Learning (2024), SL-SWCS (2023, 2025).

VOLUNTEERING & LEADERSHIP

Leo Club of Nallur (Leo District 306 D12) **Jun 2022 – Sep 2026**

- **President** (Jul 2026 – Sep 2026): club direction, community initiatives, and executive board governance.
- **Vice President** (Jun 2025 – Jun 2026): project operations, committees, and planning.
- **Secretary** (Jun 2024 – May 2025): executive documentation, compliance, and communication records.
- **Project Coordinator** (Jun 2023 – May 2024): community projects and volunteer programmes.
- **Editor** (Jun 2022 – May 2023): newsletter, content, and media.

Leo District 306 D12 — Sri Lanka & Maldives **Jun 2025 – Jun 2026**

- **District Chief Editor:** district communications, publications, public relations, and media across Sri Lanka and Maldives.
